

1
Sealer being used for the test

2
The sample on the right just received its first coat and dried in 4 minutes

3
Second coat still wet but dried in 4 minutes

4
After the test with 2 coats of sealer, there is no noticeable difference in color

For a backsplash you may want to seal Natura Stone. This will make it easier to clean up after splashes or spills. We won't recommend any brands but do want to share what has worked for some of our clients.
